SECTION B

51. **Read the passage below carefully and answer the questions that follow, in full sentences.**

Children's safety at both home and school is of great importance. It leads to freedom of interaction within the environment. The children therefore, need an environment, which is safe in order to explore and enjoy themselves. Many children are exposed to many dangers nowadays. Some of these dangers are kidnapping, accidents, malnutrition and child sacrifice, among others.

These vices, especially kidnapping and child sacrifice in our community have led to public outcry. Through kidnapping, many children have ended up in merciless hands of witch doctors, who have sacrificed them. Schools therefore need to be secure and safe and so should our homes. This should be so to protect our children from falling prey to the above vices.

Quite often, children encounter a lot of accidents in homes. These accidents often occur due to carelessness of parents or care givers. The most common ones range from burns, scalds, falls which lead to factures or bruises, and cuts from sharp objects. Burns are injuries that occur from dry heat or trough torching hot objects whereas scalds occur from hot liquids such as milk, tea, water porridge or steam. Our entire environment, be it school or home, should be very safe for our children. This will make them grow up happily and become good and responsible citizens.

53. **Read the following poem carefully and then answer in full sentences, the questions that follow.**

I heard a bird at dawn,
Singing sweetly on a tree,
That the dew was on the lawn
And the wind was on the lea
But I did not listen to him
For he did not sing to me

I didn't listen to him,
For he did not sing to me,
That the dew was on the lawn
And the wind was on the lea
I was singing at the time
Just as prettily as he.

I was singing all the time,
Just as prettily as he
About the dew upon the lawn
So I didn't listen to him.
As he sang upon the tree!
