.....

38. Give one example of a natural magnet

.....

39. Explain why a stone lands before a piece of paper when they are released from the same height once.

.....

.....

40. Name the essential mineral salt that must be added to food for layer birds.

.....

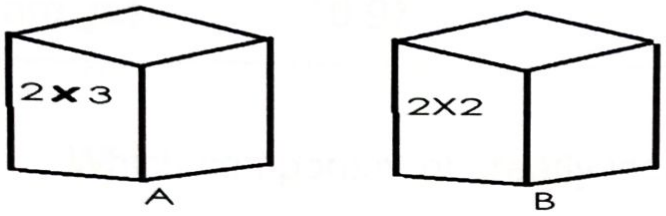

SECTION B (60 marks)

41. a) Briefly give the meaning of drug prescription.

.....

.....

b) Sasha was given a drug to take as shown in **A** below, when her friend came she removed the drug and kept in another packet as shown in **B**

i) What danger was Sasha likely to face if she later used the drug?

.....

ii) Give one condition under which medical drugs are supposed to be kept

.....

c) Give one example of a preventive drug

.....

42 Breathing is the inhaling and exhaling of air. Study the table below and answer questions that follow.

Composition of air	Exhaled air by percentage	Inhaled air by percentage
Carbon dioxide	4%	0.03%
Oxygen	16%	21%
Nitrogen	78%	78%
Rare gas	0.97	0.97%

a) Which component of greatly increases in the atmosphere due to breathing?

.....

b) Why is the oxygen we breathe out less than the one we breathe in?

.....

c)Explain why there is no change in levels of nitrogen as shown in the table above?

.....

d) Mention the main product of respiration.

.....

43 . a) How is a lunar eclipse formed?

.....

.....

b) Give **two** examples of natural direct sources of light.

i.....

ii.....

c) **In the space below, draw a diagram showing diffuse reflection.**

44. a). What is meant by "**heat period**" in cattle management?

.....

.....

b) Give **one** sign of heat period in cows.

.....

a) What term is used to mean the feeding of cows on highly nutritious feeds to prepare them for mating?

.....

b) Without using a strip cup, how can a cattle keeper detect mastitis in lactating cattle?

.....

a) Identify the main product obtained from honey bees.

.....

.....

c) Why does a drone bee die soon after mating?

.....

d) Why is syrup put near bee hives?

.....

45. The pair of metal strips was jointed and heated as show below.

a) What did the metals bend after heating?

.....

b) Why did metal A appear longer than B after heating?

.....

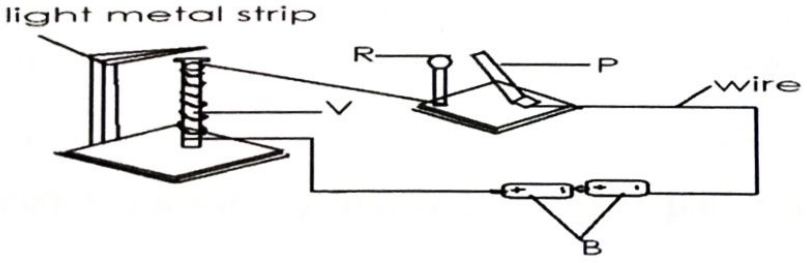

c) Give one natural source of heat.

.....

d) How do car mechanics make use of heat energy?

.....

46. The diagram below shows a simple telegraph.

a) Name part labeled **V** when the telegraph is working.

.....

b) What happens to V when P is connected to R?

.....

.....

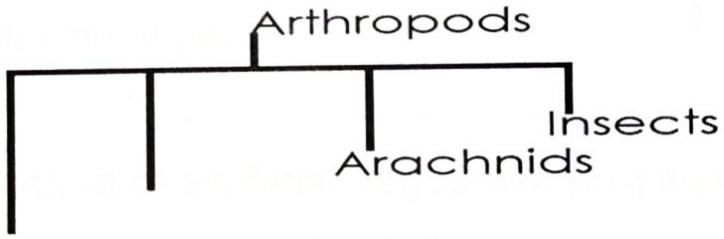

c) What form of energy is produced by the light metal strip when **P** and **R** are connected?

.....

d) What kind of energy transformation occurs in **B** when **P** is connected to **R**?

.....

47. a) Complete the drawing below by filling in the missing parts.

b) How are insects different from arachnids?

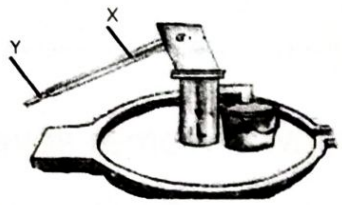

.....

.....

(c) Besides a spider, give any other example of an arachnid?

.....

48. The diagram below shows a simple machine, use it to answer questions that follow

a) Name the resource obtained by using the above machine.

.....

(b) Why would you advise the user to hold part **y** instead of **x** when using the machine?

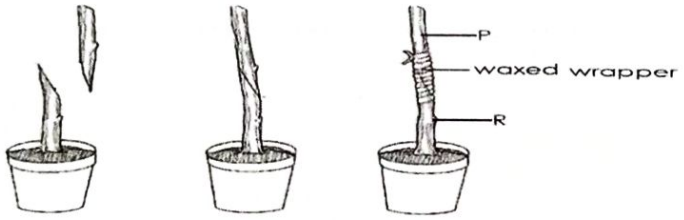

.....

(c) **Using an arrow show the direction of force when using the machine.**

c)Give any other example of a machine that belongs to the same class with the above.

.....

49. Below is a method of artificial vegetative propagation. Use it to answer questions that follow.

a) Identify the method of artificial plant propagation above.

.....

b) Give one example of a plant that can be propagated using the above method.

.....

c) Why are leaves removed when practicing the above method of propagation?

.....

d)What scientific name is given to part **R**?

.....

.....

50. a) What is an "**enzyme**" as used in digestion of food?

.....

.....

b) Give two characteristics of digestive enzymes.

(i) .....

(ii) .....

b) Name the enzyme found in the mouth of human beings.

.....

.....

52. Match the disease in list Q to the signs and symptoms in list R

List Q	list R
Scurvy	the cornea becomes dry and opaque
Night blindness	breaking and bending of bones.
Rickets	swollen and bleeding gums.
Beriberi	mental degeneration

Scurvy.....

Night blindness.....

Rickets.....

Beriberi.....

53. Give one word that is meant by each of the following.

(i) A Castrated male chicken.....

(ii) A young female chicken.....

iii) The removal of sick and unproductive animals from the flock

.....

iv) The application of powdered chemicals to kill ecto parasites

.....

54 (a)What is food preservation?

.....

.....

(b)Give any two substances used to preserve food.

(i).....

(ii).....

(c) Give one reason why food is preserved?

.....

.....

55. a) How is a vent pipe useful on a ventilated Pit latrine?

.....

.....

b) Name one disease controlled by proper use of a latrine.

.....

.....

c) Why are we encouraged to use soft tissue in a water closet system?

.....

.....

d) Apart from a toilet and latrine, give any other component of a clean home.

.....

.....

.....

.....

i) Which animals does Mr. Magumba rear most?

.....

.....

53. *Read the poem below and, in full sentences, answer the questions about it.*

My brother, my only brother
Like a baby you are,
You cry always,
When you need anything,
I know you miss Daddy and Mummy

My brother, my only brother
You are favoured and loved
Loved by all your teachers in P.5
For you are a **well-behaved** child
Though Mummy and Daddy went for good

Single handed our uncle has cared,
Cared and paid your and my school fees,
Feeding and clothing us as well,
Always there for us he is,
Like Daddy and Mummy used to.
(**Nanteza Patricia**)

a) How many brothers does the writer have?

.....

.....

b) When does the writer's brother cry?

.....

.....

c) With what is the writer's brother compared?

.....

.....

d) Why is the writer's brother loved by his teachers?

.....

.....

e) In which class is the writer's brother?

.....

.....

f) By whom is the writer's fees paid?

.....

.....

g) What else does the writer get from her uncle?

.....

.....

h) How many stanzas are in the poem?

.....

.....

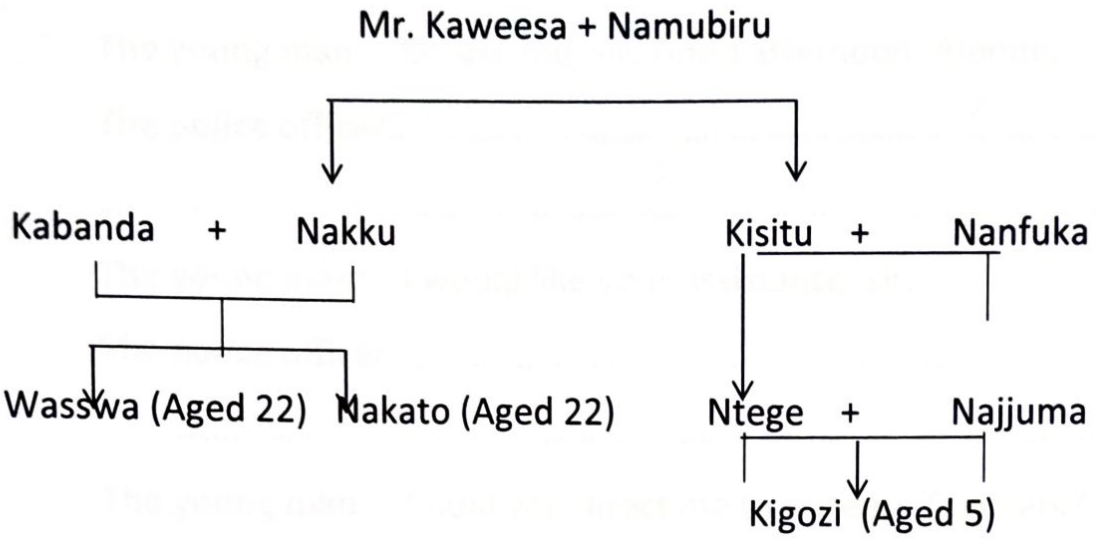

i) Write one word to mean the same as "**well-behaved**" as used in the poem.....

j) Who wrote the poem?

.....

.....

54. ***A)*** *Study the family tree below and in full sentences answer the questions about it.*

a) To whom did Namubiru get married?

.....

.....

b) How is Kisitu related to Nakku?

.....

.....

c) How many couples are shown above?

.....

.....

d) According to the family tree, who produced twins?

.....

.....

e) How many grandchildren does Mr. Kaweesa have?

.....

.....

B) *The conversation below was between* ***a young man*** *and* ***a police officer****. Study it and provide the missing responses.*

The young man: Excuse me, sir. Good afternoon, Afande.

The police officer:.....

.....

The young man: I would like your assistance, sir.

The police officer:.....

.....

The young man: Could you direct me to Nateete Taxi Park?

The police officer:.....

.....

The young man: I'd like to go there so that I may take a taxi to my home Buloba.

The police officer:.....

.....

The young man: Just after the right turn! I am almost there then. Thank you very much, Afande.

The police officer: ....., young boy, and safe journey.

55. *Your mother is the Manager of Dembe Furniture Mart in Nakawa. Using your address, write a letter to her requesting for permission to attend your friend's birthday party at Aero Beach, Entebbe, on 31st July this year.*

27- 28		
29- 30		
31- 32		
TOTAL		

SECTION A: 40 MARKS

1. Work out: 97 + 4903

2. Find the next number in the sequence;

   1, 4, 9, 16, _____

3. Write 20202 in words.

4. Simplify: 7a + 5p – 2a + 3p

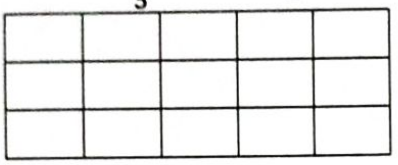

5. Given that A = {a, b}. List all the subsets in set A.

6. Simplify: $\frac{1}{3} \div \frac{1}{4}$

7. Change 50 minutes to seconds.

8. Round off 40.498 to the nearest hundredths.

9. Shade $\frac{3}{5}$ in the figure below.

10. Simplify: $^{-}2 - {}^{-}6$

11. Find the modal frequency of the following:
    2, 4, 3, 2, 4, 2, 8, 2, 4, 8

12. What number has been written in standard form to get 6.72×10^{-4}?

13. If  represent 6 oranges. Draw such pictures to represent 54 oranges.

14. Use a ruler and a pair of compasses only to construct an angle of 30^0.

15. Find the square of 0.4

16. Share 450 cakes in the ratio of 5: 4

17. A teacher can mark CDXVII books in one hour. Convert this to Hindu Arabic system.

18. Find the value of $4 \times 5 = x$ (finite 7)

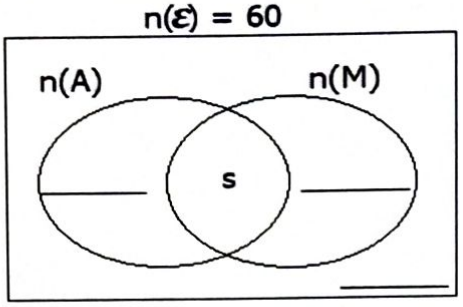

19. Grace bought a tin of mangoes at sh. 16,000. She sold the mangoes and made a profit of sh. 9,000. At what price did she sell the mangoes?

20. A business woman deposited sh. 180,000 in a bank that offers an interest rate of 20% per year. How much interest will she get after 8 months?

SECTION B: 60 MARKS

21. In a class of 60 pupils, 18 pupils like Art and Crafts (A) only, 24 like Music (M) only, s pupils like both subjects and 25 pupils do not like any of the subjects.

a) Use the above information to complete the Venn diagram below. (3 marks)

b) How many pupils like neither of the two subjects? (2 marks)

22. Nansiimbwa went to the shop and bought the following items.

3 kg of sugar at sh. 4,000 each
2 tins of blue band at sh. 1,500
250 g of salt at sh. 1,600 per kg
2 bars of soap at sh. 7,000 each

a) Find her total expenditure. (4 marks)

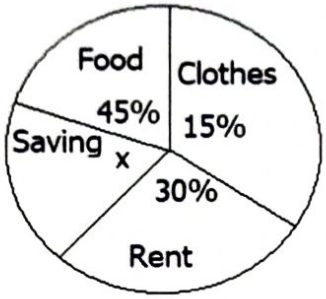

b) If she had one ten thousand shilling note and four notes of five thousand shillings, how much change did she come back home with? (2 marks)

23. At Buswege Primary school, three bells are sounded at different intervals. For a nursery section, it is sounded every after 30 minutes, for middle section, every after 40 minutes and for upper section, every after 50 minutes.

a) If these three bells are sounded at the same time, after how many minutes will they sound together again? (2 marks)

b) How many times did each of these bells sound? (3 marks)

24. The pie chart below shows Lynette's monthly expenditure. Study it and answer the questions that follow.

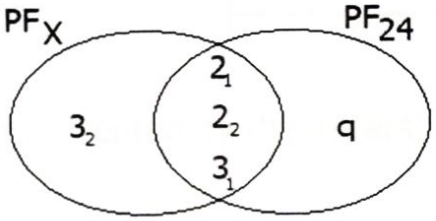

a) Find the value of x. (2 marks)

b) If she earns sh. 200,000 a month, how much money does she spend on rent? (2 marks)

c) Find the size of the angle that represents the sector for savings. (1 mark)

25. The perimeter of a rectangle is 40 cm and its width is 15 cm. Find the width of the rectangle. (4 marks)

26. Study the Venn diagram below and answer the questions that follow.

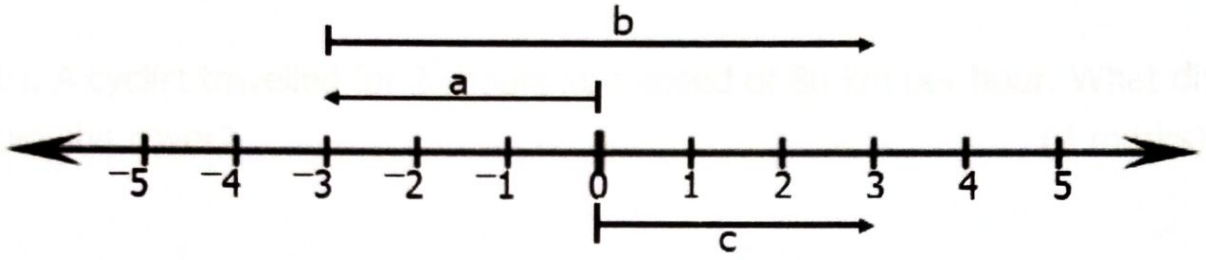

a) Find the value of X (2 marks)

b) Find the value of q. (2 marks)

c) Work out the GCF of X and 24. (2 marks)

27. Study the number line below and answer the questions.

a) Write the integers represented by the letters; (3 marks)

a = _____

b =_____

c = _____

b) Write a mathematical statement represented on the number line above.

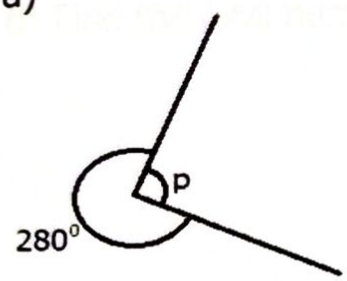

(1 mark)

28. a) At Sunrise Primary school, a PTA meeting started at 9: 15 am and ended at 11: 45 am. For how long did it last? (2 marks)

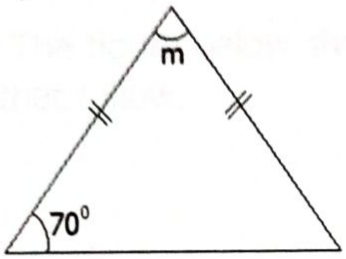

b). A cyclist travelled for $2\frac{1}{2}$ hours at a speed of 80 km per hour. What distance did she cover? (2 marks)

29. Find the size of the unknown angles.

a) (3 marks)

b) (2 marks)

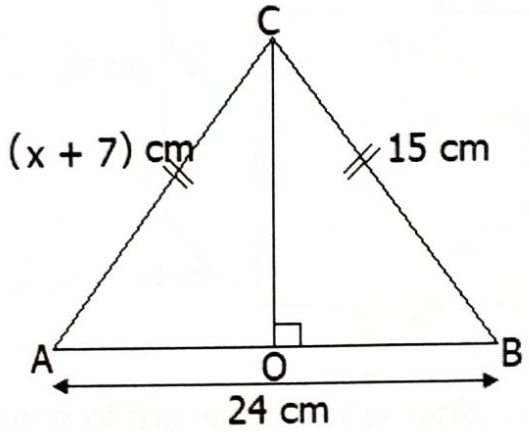

30. In a class of 60 pupils, $\frac{2}{6}$ are boys and the rest are girls. If $\frac{1}{5}$ of the boys are absent and the rest present;

a) How many girls are in the class? (2 marks)

b) Find the total number of pupils who are present. (2 marks)

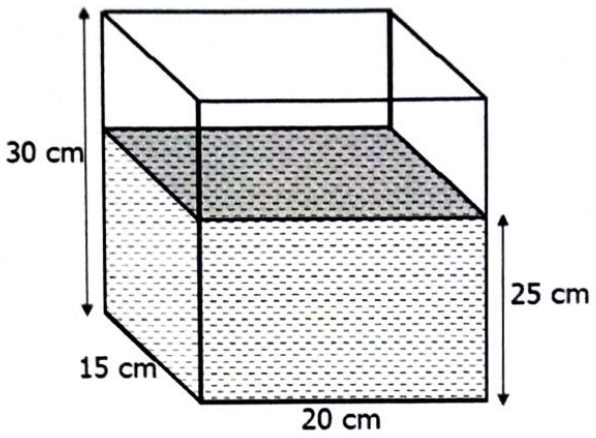

31. The figure below shows a triangle. Study it carefully and answer the questions that follow.

a) Find the value of x. (2 marks)

b) Find the area of the triangle. (4 marks)

32. The figure below shows a water tank. Study it carefully and answer the questions that follow.

a) Find the volume of the water in the tank. (2 marks)

b) How many litres of water are needed to fill the tank? (4 marks)
